

## **Group Writings/Presentations**

Groups are required to write about their discussions and research on their Wiki page for each designated topic. Each week one individual in the group will be assigned to lead the writing assignment and two other individuals will be assigned to lead the oral presentation. All individuals in the group are expected to support their group members and contribute to all assignments. Groups should come to class prepared to present their findings in an organized manner. There will be opportunity to improve upon oral presentations by collaborating with other groups. The individual Wiki page should follow the same format as the oral presentations.

## **Template for Written/Oral Presentations**

Oral presentations for any particular topic should include the following information in Powerpoint format:

- The question your group decided to explore on a particular topic
- The rationale for why your group chose this particular question
- Sources that were identified and utilized to provide information and insight into the question
- Your findings and conclusions regarding the question
- Additional questions for further exploration that emerged from your research
